**SIEMENS**

Siemens AG at Interairport - Green and Efficient Airport of the Future

'Green and Efficient Airport of the Future' is the slogan being used by Siemens AG to present itself at the Interairport trade show. The airport solutions being showcased mainly relate to safety & security, passenger handling, baggage handling, building and energy management as well as information systems and IT integration. One of the exhibits on show is a crossbelt sorter for baggage handling coupled with an RFID data acquisition terminal.

Exhibitor:
