Siemens SINAMICS PERFECT HARMONY drives ensure 99 percent availability and boost productivity with proven technology.

Different types of motors such as induction, synchronous and permanent magnet motors are all compatible with SINAMICS PERFECT HARMONY drives.

This makes SINAMICS PERFECT HARMONY drives the ideal choice for retrofits and new applications...

Because SINAMICS PERFECT HARMONY drives are optimized for long cable operations they are perfectly suited for marine and offshore applications.

GH150 / GH180 No motor stress
Other drive Other drive Motor stress

The sinusoidal wave form prevents stress...
