The information provided in this catalog contains merely general descriptions or characteristics of performance which in case of actual use do not always apply as described or which may change as a result of further development of the products. An obligation to provide the respective characteristics shall only exist if expressly agreed in the terms of contract. Availability and technical specifications are subject to change without notice.

All product designations may be trademarks or product names of Siemens AG or supplier companies whose use by third parties for their own purposes could violate the rights of the owners.

#### Did you know?

You can copy CA 01 from DVD onto a USB stick in its entirety and then use it on your PC without having to install it! Naturally you can also install CA 01 on the internal hard drive of your PC from the USB stick should you wish to.

#### Security information

Siemens provides products and solutions with industrial security functions that support the secure operation of plants, systems, machines and networks.

In order to protect plants, systems, machines and networks against cyber threats, it is necessary to implement – and continuously maintain – a holistic, state-of-the-art industrial security concept. Siemens' products and solutions only form one element of such a concept.

Customer is responsible to prevent unauthorized access to its plants, systems, machines and networks. Systems, machines and components should only be connected to the enterprise network or the internet if and to the extent necessary and with appropriate security measures (e.g. use of firewalls and network segmentation) in place.

Additionally, Siemens' guidance on appropriate security measures should be taken into account. For more information about industrial security, please visit <http://www.siemens.com/industrialsecurity>.

Siemens' products and solutions undergo continuous development to make them more secure. Siemens strongly recommends to apply product updates as soon as available and to always use the latest product versions. Use of product versions that are no longer supported, and failure to apply latest updates may increase customer's exposure to cyber threats.

To stay informed about product updates, subscribe to the Siemens Industrial Security RSS Feed under <http://www.siemens.com/industrialsecurity>.

SIEMENS

## Hardware and software requirements

- PC with 2 GHz CPU or faster
- 2 GB RAM
- Windows 7 / Windows 8.1 / Windows 10
- Screen resolution 1024 x 768 pixels or higher (1280 x 1024 recommended)
- 13.0 GB of free hard disk memory (temporary)
- 8.5 GB of free hard disk memory (complete installation)
- 2.0 GB of free hard disk memory for each further data package (optional)

## Installation versions

### Running the catalog from the DVD

The Interactive Catalog CA 01 can be run direct from the DVD. Product configurators cannot be used when running the catalog from the DVD. The userspecific data is stored locally.

### Local installation – complete

With this installation version, the CA 01 software is installed first, and then the CA 01 data package. The product configurators (SPICE) and the TIA Selection Tool are also installed. Approximately 8.5 GB of memory space is required.

### Local installation – user-defined

With this installation version, the CA 01 software is installed first, and then the CA 01 data package. With user-defined installation of the CA 01 data package, the product configurators (SPICE) and the TIA Selection Tool are **not** installed as standard. Approximately 2.0 GB of memory space is required.

### Network installation

Installs the entire DVD on a network drive (memory requirement approx. 8.5 GB). The Interactive Catalog CA 01 can then be launched direct from the network drive. The user-specific data is stored centrally in the selected directory path.

## Installation/updating instructions

### Updating an existing CA 01

The Interactive Catalog CA 01 does not update or delete CA 01 versions that are older than 10/2011. User specific data from versions older than 10/2011 can be imported with the function "Data acceptance from previous version". File "readme.rtf" on the catalog DVD provides additional information. Version 10/2011 and newer versions are updated automatically during installation.

## Starting from the DVD

- Insert the DVD in the drive.
- If "AUTORUN" is activated on your PC, the installation starts automatically. Otherwise, call "Setup.exe" in the main directory of the DVD.
- Select "Start DVD".
- Alternatively, you can also start the Interactive Catalog using "CA01.exe" in the "CA01\Program" directory of the DVD.

## Executing a local installation

(Installation versions "complete" or "user-defined")

- Insert the DVD in the drive.
- If "AUTORUN" is activated on your PC, the installation starts automatically. Otherwise, call "Setup.exe" in the main directory of the DVD.
- Select "Local Installation".
- Alternatively, you can also start the local installation using "Setup\_CA01.exe" in the "CA01" directory of the DVD.

## Executing a network installation

- Insert the DVD in the drive.
- If "AUTORUN" is activated on your PC, the installation starts automatically. Otherwise, call "Setup.exe" in the main directory of the DVD.
- Select the installation version "Network installation".
- Alternatively, you can also start the network installation using "NetworkSetup.exe" in the "CA01" directory of the DVD.

## Uninstalling Interactive Catalog CA 01

First, uninstall the "Data Package English International for Interactive Catalog CA 01" as follows:  
Start > All Programs > Siemens > Data package English International for Interactive Catalog CA 01 > Remove

If several data packages are installed, they must be completely uninstalled before Interactive Catalog CA 01 can be removed as follows:  
Start > All Programs > Siemens > Interactive Catalog CA 01 > Remove

Alternatively, CA 01 or the data package(s) can also be uninstalled using the Windows Control Panel:  
Start > Control Panel > Software > Data package English International for Interactive Catalog CA 01 > Remove  
or  
Start > Control Panel > Software > Interactive Catalog CA 01 > Remove
